Our plan to make transport better

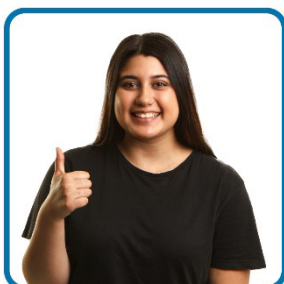

We want people in Brimbank to be able to:

- travel safely

- have good transport options

- travel in ways that make them feel fit and well.

Our plan has 3 goals:

- connect people to work, schools and shops

- turn our streets into community spaces people can use in healthy ways

- provide fair transport that everyone can use.

What our plan will do

We need to:

- make walking to places close to home better and easier

- make riding bikes safer for everyone

- ask for more buses and bus routes

- ask for fast trains to the city and airport

- make our roads safer for driving.

Our plan will also provide:

- better car parking

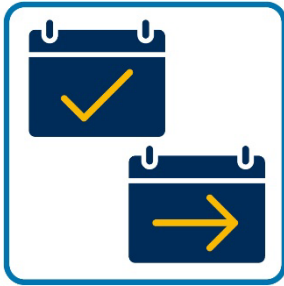

- trucks that deliver goods to shops

- clean transport that is good for people and our environment

- more homes near train stations.

Our plan also thinks about new ways that transport works now and in the future.

For example:

- E-scooters

- car sharing services.

How we manage transport in Brimbank

We manage local transport in Brimbank.

This includes:

- walking

- bike riding

- local roads

- car parking.

We also work with the:

- Australian Government

- Victorian Government.

We tell them what we need from our:

- buses
- trains.
